C# • C++ • Python • HTML

Leadership

Communication

Teamwork

Problem Solving

Animation

PROFILE

A creative and collaborative programmer, comfortable within engines such as Unity, Unreal and programming languages including C# and C++. I have a passion for creating complex AI systems. I enjoy working collaboratively and have been a strong team leader and member. I strive to learn and improve my skills whilst enjoying the projects I work on.

WORK EXPERIENCE

CYCLE INSTRUCTOR

Cycle Confident → Ancrum Outdoor Center | 2023- 2026

Working as a Cycle instructor and teaching bikeability in primary schools across the UK, I learnt a lot about management, whether it was to do with organising my time or a bunch of loud kids.

- Created session plans and performed risk assessments
- Handled high pressure situations logically and calmly
- Developed dynamic problem solving skills to achieve the best outcome in situations in which I was disadvantaged
- Worked harmoniously with a large variety of coworkers as a lead and co-lead

VOLUNTEER WORK

VOLUNTEER STUDENT ETHICS COMMITTEE

East London Arts and Music (ELAM) | 2020 - 2021

I provided ideas and worked with my peers during meetings in order to make decisions on how we could create a more culturally diverse college, and also ensure that the students' thoughts on ethical matters were heard by senior management. We also planned events to celebrate the many ethnic groups within our community.
